Life Probes

The Lifeprobes Kiosk performs automated pre-consultation patient assessments that allow healthcare professionals to maximize operational efficiencies by improving the speed and flow rate of patient onboarding in medical offices, clinics, and hospitals

PRE- CONSULTATION ASSESSMENT

Lifeprobes Kiosk provides the following:

- Patient check in online via Apps using smart-phone / tablet / computer and QR code identification.
- Online Medical questionnaire
- Height and weight
- Temperature
- Blood pressure
- Sp02%
- Heart rate
- Estimated body composition
- Markers related to the autonomic nervous system aging
- Marker of vascular aging
- Customized suggested Diet under the MD's supervision

The patient report is sent automatically to the assigned MD and can be uploaded to any EMR/ EHR.

BENEFITS

Life Probes

- Improves patient flow in medical offices, clinics, and hospitals
- Improves the image and reputation of the medical facilities using technology and shorter consultation time
- Saves time and money to assess the mandatory pre-consultation
- Efficient triage in Hospital ER
